Model Portfolio Information Document

INVESTMENT OBJECTIVE:

The i² Global Moderate Solution has been designed to achieve a benchmark of the ASISA Global MA High Equity category average at high levels of volatility and is thus suitable to an investor with a high appetite for risk and a need to achieve long-term growth and geographic diversification of returns measured in US dollar terms. The solution is comprised of a selection of top rated, award winning fund managers with exceptional track records in achieving their respective benchmarks.

Minimum Investment:	USD 60 000

RISK PROFILE - MEDIUM

MEDIUM RISK PROFILE

A Moderate investor values reducing risk and enhancing returns equally. This investor is willing to accept moderate levels of risk to seek higher long-term returns. A Moderate investor may endure a short-term loss of principal in exchange for long-term appreciation. This portfolio generally holds more equity exposure than low risk portfolios. In turn the expected volatility is higher than low risk portfolios.

MEDIUM ASSET ALLOCATION

The underlying portfolios invest in a spectrum of investments in the equity, bond, money, or property markets. The Wrap Solution tends to have an increased probability of short term volatility, aim to maximise long term capital growth and can have a maximum effective equity exposure of up to 75% and a maximum effective property exposure of up to 25% of the market value of the portfolio.

FEES

Please note that unit trust funds are subject to brokerage and other applicable statutory charges. However, these are accounted for in the total expense ratio (TER) of the fund. The weighted TERs may vary marginally between Linked Investment Service Providers (LISPs). The Total Expense Ratio (TER) of the underlying funds, administration and portfolio management fee can be obtained from your proposal. A schedule of fees, charges and maximum commissions is available on your request.
