

INVESTMENT OBJECTIVE:

The i² Global Strategy Portfolio is a low cost, global passive portfolio, that has been designed to outperform the ASISA Global EQ General benchmark and is thus suitable to an investor with a high appetite for risk and a need to achieve long-term growth and geographic diversification of returns measured in ZAR. The portfolio is comprised of a selection of top rated passive trackers with exceptional track records in achieving their respective benchmarks. During the ongoing management process, geographical, sector and asset allocation tilts are made, based on current global market and economic conditions, with the goal of outperforming the chosen benchmark.

RISK PROFILE - HIGH

HIGH RISK PROFILE

A high risk investor values maximizing returns and is willing to accept higher levels of risk. A high risk investor may endure large losses in favour of potentially higher long-term returns. Generally, these portfolios hold more equity exposure than any other risk profiled portfolios and therefore tend to carry higher volatility.

GROWTH ASSET ALLOCATION

The underlying funds track a spectrum of shares across all industry groups as well as across the range of large, mid and smaller market capitalisation shares. The intent is to produce a risk/return profile that is comparable with the risk/return profile of the overall ASISA Global Equity General (EQ General) benchmark.

FEES:

Please note that funds are subject to brokerage and other applicable statutory charges. However, these charges may differ between custodians. Please refer to the specific custodian. A schedule of fees, charges and maximum commissions is available on your request.
