A High risk investor values maximizing returns and is willing to accept higher levels of risk. A High risk investor may endure large losses in favour of potentially higher long-term returns. Generally, these portfolios hold more equity exposure than any other risk profiled portfolios and therefore tend to carry higher volatility.

ASSET ALLOCATION

The underlying portfolios invest in selected shares across all industry groups as well as across the range of large, mid and smaller market capitalisation shares. While the underlying managers may subscribe different investment styles or approaches, their intent is to produce a risk/return profile that is comparable with the risk/return profile of the overall JSE equities market.

FEES

Please note that unit trust funds are subject to brokerage and other applicable statutory charges. However, these are accounted for in the total expense ratio (TER) of the fund. The weighted TERs may vary marginally between Linked Investment Service Providers (LISPs). The Total Expense Ratio (TER) of the underlying funds, administration and portfolio management fee can be obtained from your proposal. A schedule of fees, charges and maximum commissions is available on your request.
