Investment objective

The i² Income Solution has been designed to achieve a benchmark of the ASISA South African MA Income category average at low levels of volatility and is thus suitable to an investor seeking stable income and a high level of capital stability. This is an income orientated solution with exposure to primarily money market and flexible income funds. The solution is structured to remain within the prudential guidelines (Regulation 28). The solution is comprised of a selection of top rated, award winning fund managers with exceptional track records in achieving their respective benchmarks.

CONSERVATIVE	CAUTIOUS	MODERATE	MOD. AGGR.	AGGRESSIVE

An Income investor values protecting principal over seeking capital appreciation. This investor is comfortable accepting lower returns for a higher degree of liquidity and/or stability. Typically, an Income investor primarily seeks to minimize risk and loss of principal. Generally low risk portfolios have minimal equity exposure or no equity exposure, resulting in far less volatility and in turn the probability of capital loss is less likely.

ASSET ALLOCATION

The underlying portfolios invest in a spectrum of investments in bonds, fixed deposits, other interest-bearing securities, and at times a low exposure to equities and real estate markets. The Wrap Solution offers the potential for capital growth, together with a regular and high level of income.

FEES

Please note that unit trust funds are subject to brokerage and other applicable statutory charges. However, these are accounted for in the total expense ratio (TER) of the fund. The weighted TERs may vary marginally between Linked Investment Service Providers (LISPs). The Total Expense Ratio (TER) of the underlying funds, administration and portfolio management fee can be obtained from your proposal. A schedule of fees, charges and maximum commissions is available on your request.
