Investment objective

The i² Moderate Solution has been designed to achieve a benchmark of the ASISA South African MA High Equity category average at moderate levels of volatility and is thus suitable to an investor with a moderate appetite for risk and a need to generate income and capital growth over the medium-term. This is a high equity solution with a maximum of 75% in equities and is structured to remain within the prudential guidelines (Regulation 28). The solution is comprised of a selection of top rated, award winning fund managers with exceptional track records in achieving their respective benchmarks.

A Moderate investor values reducing risk and enhancing returns equally. This investor is willing to accept moderate levels of risk to seek higher long-term returns. A Moderate investor may endure a short-term loss of principal in exchange for long-term appreciation. This portfolio generally holds more equity exposure than low risk portfolios. In turn the expected volatility is higher than low risk portfolios.
