Investment objective

The i² Integrated Growth Solution's objective is to deliver long-term capital appreciation through active asset allocation. The Solution aims to generate a return in excess of the ASISA South African Equity General category average and is thus suitable to an investor with a high appetite for risk. The Solution is comprised of a selection of top rated, award winning fund managers with exceptional track records in achieving their respective benchmarks and a selection of cost-effective passive investment strategies, with a specific bias toward fund managers offering product integration benefits, bonusses and incentives, thus optimising the product design benefits. The portfolio does not adhere to the guidelines set by Regulation 28.

A High risk investor values maximizing returns and is willing to accept higher levels of risk. A High risk investor may endure large losses in favour of potentially higher long-term returns. Generally, these portfolios hold more equity exposure than any other risk profiled portfolios and therefore tend to carry higher volatility.

ASSET ALLOCATION

The underlying portfolios invest in selected shares across all industry groups as well as across the range of large, mid and smaller market capitalisation shares. While the underlying managers may subscribe different investment styles or approaches, their intent is to produce a risk/return profile that is comparable with the risk/return profile of the overall JSE equities market.

FEES

Please note that unit trust funds are subject to brokerage and other applicable statutory charges. However, these are accounted for in the total expense ratio (TER) of the fund. The weighted TERs may vary marginally between Linked Investment Service Providers (LISPs). The Total Expense Ratio (TER) of the underlying funds, administration and portfolio management fee can be obtained from your proposal. A schedule of fees, charges and maximum commissions is available on your request.
